

# Paris on a Sunny Day

Prince Royce

Another flight to paradise  
But it's too far from home  
The perfect weather's nice  
But it's not where I belong  
I know this is a life that I signed up for  
But I don't need another stamp on my passport  
To know where I'm going  
Cause I'd rather be nowhere with you

Know-it-all's around me  
Telling me what I need  
They don't know enough about me  
I know you're probably worried  
So girl I try to hurry  
Right back to your love  
That's all I want

I don't wanna let another plane steal me away, no  
I don't need to see another view to know  
What I have when I'm there with you  
Even on sunny days, sunny days  
Paris don't compare to your smile  
Even on sunny days, sunny days  
Paris don't compare to your smile

Living out a duffle bag gets real old real fast  
Soon as I get far enough I want now come back  
Right back to you

Know-it-all's around me  
Telling me what I need  
They don't know enough about me  
I know you're probably worried  
So girl I try to hurry  
Right back to your love  
That's all I want

I don't wanna let another plane steal me away, no  
I don't need to see another view to know  
What I have when I'm there with you  
Another hotel room with no one there at the end of the night  
You'd be here with me if I could have it my way  
Paris don't compare to your smile  
Even on sunny days, sunny days  
Paris don't compare to your smile  
Even on sunny days, sunny days  
Paris don't compare to your smile

Tell 'em keep the beaches, the penthouse suites  
Ain't gotta be the richest if you're with me  
Girl, I'm on my way home to see your face  
Anywhere with my love's my favorite place  
The sun rises in your eyes and sets on me  
Nothing, nowhere, nobody could measure your beauty  
So you must be where I'm supposed to be

Cause I don't wanna let another plane take me away, no

I don't need to see another view to know  
What I have when I'm there with you  
Another hotel room with no one there at the end of the night  
You'd be here with me if I could have it my way  
Paris don't compare to your smile  
Even on sunny days, sunny days  
Paris don't compare to your smile  
Even on sunny days, sunny days  
Paris don't compare to your smile
