

# See Forever Eyes

Prism

Looking right through you she knows who you are she's got see forever eyes  
A spirit obsessed, a vision possessed with universal inner sight  
No stranger to love she's had many men but none of them survived  
Her crystal excites so follow the light of her see forever eyes

CHORUS

See Forever Eyes  
See Forever Eyes

Beholding the mirror her eyes give a feeling of lonely vacant skies  
Soaring above always searching for love the soul within her flies  
Caught by a glance, in a gossamer trance, woven by her lies  
Compelling them nearer, dispelling their fear with her see forever eyes
