

Spaceship Superstar

Prism

Every night is a different flight to a different galaxy
Do a sold-out show, then I hit the road in my starship limousine

Get so damned tired and uninspired doin' all these one night stands
It's a giant leap for Rock'n'Roll...but it's too much for just one man

I'm a Spaceship Superstar... gotta solar-powered laser beam guitar
I'm at the top of all the charts on Mars...I'm a Spaceship Superstar!

On Mercury, they're crazy about my stellar rock'n'roll
And I always sell out in advance at the Martian Astro Bowl

The fans, they swarm like meteorites to our concerts on the moon
You should have seen us knock'em dead on Venus doin' all our favorite tunes

I'm a Spaceship Superstar...gotta solar-powered laser beam guitar
I'm at the top of all the charts on Mars...I'm a Spaceship Superstar!
