

## Kill or Be Killed

Pro-Pain

These times are changin' so you keep up or fuckin' die cause war is contagious  
Gotta tell us the truth, don't fuckin' lie  
As our foes surround us the system stabs us in the back  
No help to help us defend in case of an attack  
Yet the beast within shall rise from sea to shining sea  
It's a call for their demise by hate - eternally  
It's kill or be killed

So who can be trusted if we're represented by the past?  
All options exhausted  
Conclusions jumped too far too fast  
What's to save us if religion sowed the seeds of war  
God forgave us for the past atrocities ignored  
Now the evil one shall die but who the fuck are they?  
No need to question why we're bitter to this day  
It's kill or be killed
