

Subculture in our public schools  
Got real drunk and acted cool  
Tought me how to hate myself  
So fuck you and everyone else

In retrospect the wasted time brings me down  
Thoughts of revolution follow me around  
Everywhere I got it bugs me to this day  
THat most of us are causing all this pain  
Yes, some I love, but most I hate

Strain the bullshit from my brain  
Enough to make you go insane  
Independence is extinct  
SO try no to swim while we sink

Fourtunately now Im skeptical and wise  
You can blow your smoke, I'll read between the lines  
Everywhere I go it bugs me to this day  
that most of us are causing all this pain  
Yes, some I love, but most I hate
