Project Pata, purple drank, purple leafa
Should've been a engine - I'm such a chiefa
Reefa, marijuana, sticky leafa
Cross me, haircut to the green meter
Beat a, murder charge, in the state a
Let a nigga slide by, like a skata
Paper comin' in off the hustle
Money on the wood, make it good off the muscle
Cigarillo, prep it up, no tobacco
Crumble up the medico, out the packo
A wacko, weed fiend, dip it in lean
Didn't have no mollies, for them dollies gave em beans

My bitch smoke weed, she make that shit look good
Butt-ass naked, rollin' up Backwoods
Fuck her from behind, got that ass lookin' terrified
It's chicken, I'm Kevin Bacon, yes, I'm very high
Pussy paralyzed, only fucking Steelers fans
She camera shy, but naked on my Instagram
Smokin' on that fire, volcano vaporizer
Real pimp, bitch, blow that smoke in her vagina
... eat MacDonalds off of china
Not the plate, bitch - I mean that wrestling hoe
On that molly, acid, shrooms, it's a festival
