Storm World

Project Pitchfork

History of the world
Painted with blood
Every single page
A neverending chain of hate
Rattling bodies in the trench
Pyramids build out of corpses
We don't realize the end
We still go on and on and on

Let's sell our slaughter toys
I want more money
We want more money
Let's rouse another war
I want more blood
We want more blood

Come to us
We're here in the darkness
Come to us
We'll make you crawl

Come on and join the army
Die for us

From cudgel to arrow
From nerve gas to atom bomb
I can't stand it anymore
'cause the pressure's gettin' sore
Why do we conjure up devils
As they live already beside us

Let's sell our slaughter toys
I want more money
We want more money
Let's rouse another war
I want more blood
We want more blood

Come to us
We're here in the darkness
Come to us
We'll make you crawl
