

Way Of The World

Project Pitchfork

Can you hear
The cry of the world
Since the birth of time
There is something and someone
Very far, who gives you the shivers
That's the way of the world
No matter how strong or mighty you are

Someone will give you a scare
And you will cry out
Into the world
Help me to get rid of this

The crucial thing is:
It happens to both of you
At the same time
You are planting fear
Into someone new

We are roaming in circles
On a rock we're calling home
Around and round the sun
We can't get away
No matter how fast we run

We are roaming in circles
On a rock we're calling home
Around and round the sun
We can't get away with it
No matter how long we run
