

Love Gone Cold

Protoje

(Whoa)

I know you think about me every night (yes you do)
Especially when he ain't treating you right (that ain't new)
I guess it didn't go according to plan
Tried to replace me with a simpler man
The streets of kingston yeah they do get so cold (yes they do)
To think you thought that they were covered with gold (such a fool)
Now everybody's got your story to tell
I hope you handle it well

Love gone cold
Gave you all I had yes I played my role
I cannot give you more than that (even if I love you baby)
I love you but I'm not coming back (not coming back)
Oh no (not coming back)
You done me wrong
Yet you kept repeating the same old song
But baby that won't change the fact (why dontcha love me baby)
I love you but I'm not coming back (not coming back)
Oh no no

Girl nah show man no decency
Didn't believe up till recently
Change her mind oh so frequently
And me can't operate pon that frequency
Time she'd ah there pon di P's and Q's
Start act different she seem confused
All of the things weh she keep consume
Carnival ah come and she need costume
Me wan left from the blinding lights
She just care bout the friday nights
From sunset back to broad daylight
How she coulda be the queen if she can't play right
But she woulda rather be the ace
All of the fun weh she take out of the chase
Wan make a run but me know it not a race then
But such is the case when

Love gone cold
Gave you all I had yes I played my role
I cannot give you more than that (even if I love you baby)
I love you but I'm not coming back (not coming back)
Oh no (not coming back)
You done me wrong
Yet you kept repeating the same old song
But baby that won't change the fact (why dontcha love me baby)
I love you but I'm not coming back (not coming back)
Oh no no no

Now you're calling in the dead of the night
Like I made up the things you did in my mind
You have no respect and you don't even try
Out there playing games always telling lies (telling lies)
Look what you look what you just look what you did
Don't you care about my feelings?
There was a time when what we had was true

Now those days are gone there's nothing left to do

Now you're alone with all those secrets you keep
Keeping you up and you can't go back to sleep
Sleeping around to find a happier place
Placing your heart inside a lonlier space
I guess you thought things would get better with time
Not knowing what we had was one of a kind
Now you're afraid to look at who you've become
An empty soul on the run

Love gone cold
Gave you all I had yes I played my role
I cannot give you more than that (even if I love you baby)
I love you but I'm not coming back (not coming back)
Oh no (not coming back)
You done me wrong
Yet you kept repeating the same old song
But baby that won't change the fact (why dontcha love me baby)
I love you but I'm not coming back (not coming back)
Oh no no no
