

Orekche

Psapp

We're going backwards now
But it was fun, let's do it all again

We're going backwards now
But it was fun, let's do it all again

We're going backwards now
But it was fun, let's do it all again

We're going backwards now
But it was fun, let's do it all again

You can be bleak, you can be an empty shell
You just can't be yourself

You can be bleak, you can be an empty shell
You just can't be yourself

I can make you sing
Yeah, I can make you tame

However this started
I don't want it to change

Please don't let me do this to us
Please don't let me do (do it all again)

Please don't let me do this to us
Please don't let me do (do it all again)

I'm in immortal mode
Oh, you were right, we don't need to die

I'm in immortal mode
Oh, you were right, we don't need to die

I'm in immortal mode
Oh, you were right, we don't need to die

I'm in immortal mode
Oh, you were right, we don't need to die

You can be bleak, you can be an empty shell
You just can't be yourself

You can be bleak, you can be an empty shell
You just can't be yourself

A tiny wren bird singing
I am not to blame

However this started
It ends up just the same

Please don't let me do this to us
Please don't let me do (do it all again)

Please don't let me do this to us
Please don't let me do (do it all again)

You can be bleak, you can be an empty shell
You just can't be yourself

You can be bleak, you can be an empty shell
You just can't be yourself

You can be bleak, you can be an empty shell
You just can't be yourself

You can be bleak, you can be an empty shell
You just can't be yourself
