

# The Monster Song

Psapp

Look out the door, that's what it's for  
And tell me what do you see?  
I do believe that through the trees  
There's something hiding from me

The window's wide, it climbs inside  
But I don't hear it creeping  
I know its plan because it can  
It gets me while I'm sleeping

Oh, and it's happening again  
It is laughing in the rain  
When it gets me  
I will never be the same

Come out the dark and join the march  
And we'll taste victory I know  
And through the crowds and bustling sounds  
There's something waiting for me

It wears disguise, a faint surprise  
Though I can see its yellow eyes

Oh, I can hear it as it comes  
And it wants to taste my blood  
We've already lost, my love  
We'll never be the same

An open gate will close at eight  
I'll bolt the door and pace the floor  
I still believe behind the leaves  
There's something waiting for me

A rising fear tells me it's near  
And I'm about to be consumed  
The monster looms and soon I know  
I will be dead and gone

Oh, and it's happening again  
And I do not like this pain  
Now it's got me  
I will never be the same

You know I like to go for familiar feelings  
And when they show hey only grow  
I can't hide their meanings

You know I like to go for familiar feelings  
And when they show they only grow  
I can't hide their meanings
