

# Tiger My Friend

Psapp

You're always the same, you're always the same  
You're always the same, you're always the same  
You're always the same, you're always the same  
You're always the same, you're always the same  
You're always the same, you're always the same

Come on into the boat  
To get from here to there  
We'll row  
We'll row  
We'll row

Through leafy fronds and tiger fur  
You take a better oar

We'll row  
We'll row  
We'll row

The best blue is through the trees  
A royal canopy

We'll row  
We'll row  
We'll row

You're always the same, you're always the same  
You're always the same, you're always the same  
You're always the same, you're always the same  
You're always the same, you're always the same  
You're always the same, you're always the same  
You're always the same, you're always the same
