

# The Root of All Evil

Psychostick

Dentist, going to the dentist and it's gonna SUCK.

Sitting in the waiting room  
Waiting for my turn to sit on the throne of pain.  
While filling out various legal documents  
All starting to look the same.  
My insurance information and my medical history  
I don't know if they want me to

"Excuse me, did you have any questions about the form?"

YES. As a matter of fact I do.  
Do I feel out this part here too?

"No, don't worry about that, we fill that part out. If  
you're ready the doctor will see you now."

"Hello, I'm Dr. Taylor. How are you today?"

FINE.

"That's great! What we're gonna do is take a few x-rays  
then we'll see what we need to take care of, okay?"

Sit back regret how it all has come to this  
I know that I should have been brushing  
All that plaque was having a party  
I've been dreading this exact moment  
Open wide, the fun begins now she's  
Putting a buncha shit in my mouth  
Now I'm feeling

Pain, suck, sucking pain, that sucks.  
Poking and prodding and pressing and probing and  
pulling all feels utterly violating

Suck, pain. Painful suck. That hurts.  
Drilling and filling and digging and yanking and  
Scraping is something I think is unnerving

Smooth jazz adds to my misery, easy listening while  
they are raping my poor teeth  
I lost a fight to tooth decay, tooth extraction Feels  
like they're digging out my brains

This is not the oral care I prefer!  
I've got a bunch of cavities to fill before another  
tooth falls out  
Lie helpless and let them dig out the nerve  
I need another shot of Novocain to numb it while my  
teeth get plowed
