

# The Sleepers Have Awoken

Psycroptic

Bounded since birth  
To a master never revealed  
I have been enslaved  
Hidden beneath a deep cosmic veil  
Flickers of reason, clouded by doubt  
Truths that lay dormant  
Now remembered

A crisis ensuing within my mind  
Conflicting duality, illogical reality  
Everything once known is wrong  
Denial, despair, desperation  
I can not make this insanity stop

A sleeper has awoken  
Awake! A sleeper no more  
Validation... vindication  
For once a fraudulent life  
Seeing the five universal laws are really eight

Eating away at a once sane mind  
This reality is coming to an end  
You cannot ignore the truth  
And the truth will set you free...  
This is what I have always been told  
This is what I always believed

A sleeper has awoken  
Awake! A sleeper no more  
Validation... vindication  
For once a fraudulent life  
Seeing the five universal laws are really eight

My new knowledge, our new power  
We are now in control

New senses awake, a species reborn  
Nothing can stand in our path

Life now balanced, minds set free  
We were not ready for this...  
A knowledge so true, so pure; it poisons us

The body can't keep such knowledge contained  
Our only way to survive  
Cast away all reason  
Smart enough to know  
We aren't smart enough for this...
