When I was with this girl last night / she held me tight; it tu rned me on

The moon was dark and those clothes were tight

her perfume strong; it turned me on

Fleeting moments touched in the night

then so strong but banished by the light

Her presence gone, memories remain / of how she kissed and turn ed me on

Now there's this love inside of me / I've got this love / inside of me

And I still have dull aching pain / desire to reach and touch y ou once again

Distractions cannot sate the need / it grows once more, it grow s once more

I've got this love inside of me / I've got this love / inside o f me $\$

I've got this love inside of me / I've got this love / inside o f me $\$

I have this pain inside of me / Why can't you see? Why can't yo u see?

I'm stranded here with no way home

Please rescue me, oh won't you rescue me?

I've got this love inside of me / I've got this love / inside o f me

I've got this love inside of me $\ / \$ I've got this love $\ / \$ inside o f me.
