

Leave My Heart Alone

Pure Prairie League

Tackle a friend 'n hold your own there's just a storm to come
Pack up your rockin' chair... (pack up your rockin' chair)
Wait, then you're livin' like some kept it on your mind
Baby, go back where you come from
Sister, brother hope there's some... here to learn

All the money we've been through never havin' nothin' come true
Lay down the chosen share... (lay down the chosen share)
Stay close 'n shift with someone else in half of the time
Baby, shoot down your brother's heart
And say things you think to be unkind

But leave my heart alone
Got these troubles of my own

Now you've had some time on the road with yourself again
Unleash the holdin' powers... (unleash the holdin' powers)
Stay where you're standing,
Somethin's good news comin' your way
While everything you've bitched for
Is comin' around to your back door

But leave my heart alone
Got these troubles of my own
But just leave my heart alone
Got these troubles of my own
