

# Life Comes Down Hard

Puressence

Life comes down hard It takes everything, it won't be long 'Til  
I all this hell surrounds me, hell surrounds me Oh

She eased in time We tried everything, tried as we might But there was no solution, no solution at all

And it's crawling in my head I feel it I don't wanna make you mine  
Like I said, I just wanna need you I don't wanna spend the time,  
like I said I Just wanna need you

Crawling in my head I feel it

Say, so it goes You were praying to the holy rose And she said  
no surrender, no surrender at all

And it's crawling in my head I feel it I don't wanna make you mine  
Like I said, I just wanna need you I don't wanna spend the time  
Like I said, I just wanna need you

Crawling in my head I feel it

Crawling in my head I feel it
