

## Palisades

Puressence

I just got back from Palisade Tried so hard to stop these shakes  
Felt so out of sight, out of my mind

We all go smack through a ferret hole And when I start to lose  
control Lazy shiver sparkle intertwine

Worlds collide I'm walking through Palisade Really feels like a  
dream As she's towering over me

We all set sail on our ship of fools New York via Liverpool Measures  
make our future so divine

We're cap gun hot with a heavy soul Well don't stop now I'm on  
a roll Threat will never besiege me to recline

I don't know what it is Too many frequencies

Worlds collide I'm walking through Palisade Really feels like a  
dream As she's towering over me Over me, over me, over me

You'll be right You're walking through Palisade Really feels like  
a dream Really feels like a dream Really feels like a dream  
Really feels like a dream It really feels like a dream It really  
feels like a dream

Really feels like a dream
