

When it was still fun  
to see the rising sun  
every minute was flying away  
We woke up with the morning light  
to watch the break of day  
I don't like seeing many daffodils  
awoke and flew up to the sky  
we just enjoyed our happiness  
and didn't wonder why  
I still remember deep down in September  
the nights became empty and sad  
as I looked for the sun darling you were gone  
leaving everything we ever had

Those were the nights with neon lights  
going off and on chez Louis  
Second rate stars on electric guitars  
got their applause chez Louis  
Lovers call let the tango 'ball  
go round and round chez Louis  
More cigarettes and no one gets  
the time to be alone

Will I ever again see as much as I can  
or will I be carries away  
into a life of loneliness  
and dreams of yesterday  
Now he couldn't leave her I wouldn't  
Believe her, but when I looked into my heart  
I found a place of loneliness where dreams  
could never start

Those were the nights with neon lights  
going off and on chez Louis  
Second rate stars on electric guitars  
got their applause chez Louis  
Lovers call let the tango 'ball  
go round and round chez Louis  
More cigarettes and no one gets  
the time to be alone

Take away the restless nights  
when nobody really near  
I'm longing for the summer nights  
when you were here

Those were the nights with neon lights  
going off and on chez Louis  
Second rate stars on electric guitars  
got their applause chez Louis  
Lovers call let the tango 'ball  
go round and round chez Louis  
More cigarettes and no one gets  
the time to be alone
