

Transcendence

Pyramaze

I've seen the world
That you long to explore and
I know what's behind those walls of admiration
The greater display
A free life today

Be it as it may, if you're gonna jump it could be forever
Leave or stay, whatever you choose defines who you are
Out on the ledge, testing the ground, awaiting disclosure
Close to the edge, soon this plight is over

You've been filled with stories
Someone else's memories
Planted to entertain the filthy rich in
Your world, it's not what it seems
You're living their dreams

Nevertheless, if you're gonna jump it will be forever
Time to progress, whatever you choose defines who you are
Out on the ledge, imploring for your full independence
Close to the edge, ready for transcendence

This is your chance, if you're gonna jump it will be forever
The fatal dance to show all the world who you really are
Out on the ledge, imploring for your full independence
Close to the edge, ready for transcendence
