It's Gonna Get You

Quadron

You keep giving others front pockets
They never mind it
Their time is priceless
You keep offering all your best cards
We will obey your wish
We're gonna play with it

You're gonna lose your time
If you
Keep stepping back in the line (Keep stepping back in the line)
It's gonna get you

You only get one prime so
Open your mind like a child
You need a rescue
You need a resolution (You need a resolution)
There is no tools, to live your life (No tools, to live your life)
Don't think we're all smarter

Your skin's so soft it bruises before
You even fight it
Tough words don't hide it
Yes walking tall might cause a downfall
Take on the chances
We all get advances

You're gonna lose your time
If you
Keep stepping back in the line
It's gonna get you

You only get one prime so
Open your mind like a child
You need a rescue
You need a resolution (You need a resolution)
There is no tools, to live your life (No tools, to live your life)
Don't think we're all smarter than you

If you feel like you're tired of being behind
Let me hear you say yeah?
Yeah!
And if you feel like you keep being back in the line
Let me hear you say yeah?
Yeah!

You're gonna lose your time
If you
Keep stepping back in the line
You're gonna lose your time
'cause you only get one prime
You need to open your mind like a child
Keep stepping back in the line
It's gonna get you

You only get one prime
Open your mind like a child
You need a rescue

You need a resolution
