

# What Ya Gonna Do

Queen Latifah

Someone out there is heartbroken, mmmhmm  
Someone out there feels all alone  
Can't eat, can't sleep, cause you lost someone you really love  
But you know what, you gon' get through it  
Just pray on it, alright?

Tell me why  
(Unfortunate situations you gotta go through)  
Situations come and cut you like a knife  
(Cause you to be overcome by sadness)  
Exposes your smile and turn around  
Into a frown and brings you down  
(I know it gets to weigh so heavy)  
So heavy on your mind  
It's gonna take some time  
(But sometimes I feel so low)  
Oh, sometimes I feel low

(What ya gonna do when it happens to you?)  
Tell me whatcha gonna do when it happens to you?  
(What you gonna say when your friends go away)  
What is there to say when a friend goes away?  
(What you gonna do when it happens to you?)  
Just pray, just pray, just pray  
(All you gotta do is just pray on it)

You're never ready  
(When you lose someone you love so bad)  
When the person you laughed with, talked with, trusted goes away  
(And the loss of love it makes you feel sad)  
To that special place that's written in the sky  
([?])  
I can't describe this pain that I am feeling deep inside  
(Don't you think it's time to share)  
Give it all to him

(What ya gonna do when it happens to you?)  
Tell me whatcha gonna do when it happens to you?  
(What you gonna say when your friends go away)  
What is there to say when a friend goes away?  
(What you gonna do when it happens to you?)  
Just pray, just pray, just pray  
(All you gotta do is just pray on it)

What you gonna do when it happens to you?  
When you haven't a clue what to do?  
When you're about to come unglued?  
Just put your trust in who? God  
[x4]

Searching to find the truth  
To find the light inside of you  
Searching to find the truth  
To find the light inside of you  
Searching to find the truth  
To find the light inside of you  
Searching to find the truth

To find the light inside of you  
Searching to find the truth  
To find the light inside of you  
Searching to find the truth  
To find the light inside of you  
Searching to find the truth  
To find the light inside of you  
Searching to find the truth  
To find the light inside of you

You gotta search inside your heart  
And don't let it tear you all apart  
I know it's a struggle every day  
All that you gotta do is pray
