

God Is in the Radio

Queens of the Stone Age

I thought I saw him on the video
A trance is keeping him under
I know that god is in the radio
Checkin the station
I'm glad I caught it from me to you
Just a call in the medium
I know hear it, I hear it too
It's everywhere that I go

You come back another day
And do no wrong

The say the devil is paranoid
Always signin the cover
But god is leakin through the stereo
Between the station to station
You believe it, I know you do
You won't admit it or say so
I know that god is in the radio
Just repeating a slogan

You come back another day
And do no wrong
