

## Medication

Queens of the Stone Age

Medication for us all, it is a new way  
& we're gonna take it cause wa love it  
Don't you know?

Is this the dose you've been dreamin' of?  
A revelation from a gun  
Doesn't matter  
Overtaken, mine was yours, now overthrown

Just copulation in a song  
I'mso contagious, can i cum?  
In the new way  
All of us cast asides became what has become

Medication for us all  
You think you know me, well you're wrong  
Doesn't matter  
All of us cast asides became what has become
