

After The Love Is Gone

Queensberry

Reminiscing on yesterday

I can still remember the look on your face as I turned away

Could my decision have been wrong

I just wanted to carry on what have I done the feeling's still strong

It's sad to think, that you don't miss me

It's hard to see, that you don't even care

CHORUS

What do I need to carry on why do I have to be strong

Who's gonna hold me baby after the love is gone

Why should I hide what seemed so real I miss the way you made me feel

Who's gonna comfort me after the love is gone

Quiet evenings under candle light

Used to be the way we spent the night a memory of what we once shared

I would give up almost anything to change things back to how they've been so long ago cause things just ain't right

It's clear to I know I've been a fool in love there are, in love here are no rules

CHORUS

Oooh sometimes, some one has a change of heart

If we were meant to be you won't be torn apart

But sometimes love can really break you down

Just open your mind continue to try then you'll survive

CHORUS
