

Headphones

Queensberry

Shut the door shut your mouth
Turn it down gonna shut you out
Break it up, break it off
Break the habit now
Get off my case give me space
Going underground
Ah Ah Ah

When it all gets too, much and I don't wanna fight
When i know i can't get it right

CHORUS

I put my headphones on
So I can't hear you freak
Crank the music up loud
Cause I don't wanna speak
No more words close my eyes
I put my headphones on, I I I
I put my head phones on, I I I

I got my finger on the switch
Life's a bitch time to walk away
Feel the beat feel the bass
Don't care what you say
On my feet on a one way street
Going the wrong way
Ah ah ah oh oh

When it all gets too, much and I don't wanna fight
When I know can't get it right

CHORUS

Can't you see i'd rather be alone?
Can't you see I'm in oblivion

Leave me alone why don't you
Leave me alone why don't you
Leave me alone why don't you
Leave me alone why don't you

CHORUS

I put my headphones on, I I I
I put my headphones on, I I I
I put my headphones on, I I I
