

# Lifelong Lovesong

Queensberry

One comes the other goes  
never together  
same way almost every day  
she walks in as he leaves

We've forgotten how to read the code we knew so well  
(So well, oh oh)  
I just hope we can find a way to sing a

Lifelong Lovesong  
we could have forever and a day  
Let's sing a  
Livelon a Livelong Lovesong  
we are just a heartbeat away

No words,  
A broken chord  
A beat we can't follow  
What once had a melody  
Is distorted and hollow

We've forgotten how to read the code we knew so well  
(So well, oh oh)  
I just hope we can find a way to sing a

Lifelong Lovesong  
we could have forever and a day  
Let's sing a  
Livelon a Livelong Lovesong  
we are just a heartbeat away

won't you help me sing this song  
let's everybody sing along  
we can play it on and on

Let's sing a Lifelong Lovesong  
we could have forever and a day  
Let's sing a Livelong Lovesong  
we are just a heartbeat away (2x)

Hey-Hey-Yeah..
