Queensrÿche

You're an angel with your wings broken
Wearing sandals that I tripped in
You're a holiday already taken
A cocktail that's stirred, never shaken

Your head's in overload
You've reached your threshold
And you're about to explode...

Open your eyes - Just say what you want to say
Open your eyes - You see yours isn't the only way
Open your eyes - To you everyone is blind
Open your eyes - Open your eyes and your mind

You're like a handgun that's fully loaded
Making idle threats of violence

Your head's in overload
You've reached your threshold
And you're about to explode...

Open your eyes - You take what you want for free
Open your eyes - And you see what you want to see
Open your eyes - To you everyone is blind
Open your eyes - Open your eyes and your mind

Open your eyes - Just say what you want to say
Open your eyes - You see yours isn't the only way
Open your eyes - To you everyone is blind
Open your eyes - Open your eyes and your mind

Open your mind...
Open your mind...
Open your mind...
