

I'm a hero to the sinner  
Got a rep that I can't shake  
Classify me lonely  
Order at your own risk - can't cancel the pain  
By moanin' and a groanin'  
Speak now or forever hold your peace  
Stay out if you can't stand the heat

Whatever you want - whatever you need  
It's psycho city  
They got a cure - that you'll prefer  
In psycho city

You wanna have your cake and eat it  
Middle of the road  
The candle burns at both ends  
You won't recover from a lover who tries to steal your fate  
Ain't no use in running  
Hard knocks - the school that you're running  
Money talk - ever when you're comin'

Whatever you want - whatever you need  
It's psycho city  
They got a cure - that you'll prefer  
In psycho city

Living in the city baby - living kinda lean  
Fall between the cracks now baby  
Hard to keep it clean  
Everybody wants you lately - ain't no good at all  
Look at all the crazies waiting for the chips to fall

Whatever you want - whatever you need  
It's in the city  
A magic cure - that you'll prefer  
You'll find the thing that you want  
You'll get everything that you need

Whatever you want - whatever you need  
It's psycho city  
They got a cure - that you'll prefer  
In psycho city
