

There's A Light On

Quietdrive

There's a light on in the window
Lets me know she's safe at home
Through the trees I feel the wind blow
She doesn't know that I'm watching
She doesn't know that it's cold
There's a light on in the window
Half the moon lights up the sky
There's a rope swing in the backyard
She doesn't know that I'm watching
She doesn't know that it's cold
Someday I'll find the words to make it right
Until then I'll stay outside
She doesn't know that I'm watching
She doesn't know that it's cold, cold
Someday I'll find the words to make it right
Until then I'll stay outside
Until then I'll stay outside
There's a light on in the window
Lets me know she's safe at home
