

# Big Old Bang

Quimby

Female flies in a plastic glass  
Take the Waltz with ice cube boys  
How long it's anybody's guess  
It's just a suicide toy in a bony hand  
Pistol in a bony hand  
Lies in hiding down below  
We could do with some bang bang bang  
To end the big old bang  
To end the jingle show  
Cast your eyes around the room  
You might see a single man  
He's a puppet doll of the king of fools  
He's gonna blow up now  
With a big old bang  
It's all around a passing show  
Just like a cigarette  
Or all those melting ice cube boys  
And the female flies in a plastic glass  
Hey bang bang bang, big old bang  
Just dance me to an endless joy  
Dance with me I'll pay the band...
