

Everything I Need

Quinn XCII

I know I think too much
Of what this life may bring
It keeps me up at night
Cause we're all moving on
Onto bigger things
But it's not time to say goodbye
So while we're here tonight

Let's throw a party if this is really over
Invite all your friends even the ones that hate me
'Cause after tonight, everything else is uncertain
But everything I need's in front of me

The more I think too much
Of what tomorrow sings
It makes me cover my eyes, oh why
I don't know where I'm headed
I don't know if I'm ready
But it's not time to say goodbye

Let's throw a party if this is really over
Invite all your friends even the ones that hate me
'Cause after tonight, everything else is uncertain
But everything I need's in front of me

But everything I need's in front of me
But everything I need's in front of me

Let's throw a party if this is really over
Invite all your friends even the ones that hate me
'Cause after tonight, everything else is uncertain
But everything I need's in front of me

But everything I need's in front of me
Everything I need's in front of me

Good friends, good memories (Ayy, ayy)
That's all I need (Let's go, hey, hey)
That's all I need (Let's go)
Only makes sense, only makes sense
Good times with friends only
That's all I need (It's over)
That's all I need
