

# All the Right Friends

R.E.M.

I know you say  
Maybe some day  
I need never be alone  
I know I say  
It's the right way  
But you'll never be the one

I've been walking alone now  
For a long, long time  
I don't wanna hang out now  
With the friends who just aren't mine

Party to party  
You've been looking  
But your search will never end  
You've been hanging  
With the wrong crowd  
You've got all the right friends

I've been walking alone now  
For a long, long time  
I don't wanna hang out now  
With the friends that just aren't mine

I don't wanna be with you anymore  
I just don't want you anymore  
I don't wanna be with you anymore  
I just don't want you anymore

I don't wanna be with you anymore  
I just don't want you anymore  
I don't wanna be with you anymore  
I just don't want you anymore
