

## Can You Feel It

R.I.O.

No stop I feel it somehow  
I'm going deeper underground now  
One love is in the air  
Drag it back, push it on, take it everywhere  
Can you feel it?  
Music is taking me higher  
Can you feel it?  
'Cause tonight the whole roof is on fire  
Can you feel it?  
Music is taking me higher  
Can you feel it?  
When it's real you know you'll burn like a fire  
Take me back, push it on, get it in, turn it up  
Take me back, push it on, get it in, turn it up  
Take me back, push it on, get it in, turn it up  
Take me back, push it on, get it in, turn it up  
No stop I feel it somehow  
I'm going deeper underground now  
One love is in the air  
Drag it back, push it on, take it everywhere  
Can you feel it?  
Music is taking me higher  
Can you feel it?  
'Cause tonight the whole roof is on fire  
Can you feel it?  
Music is taking me higher  
Can you feel it?  
When it's real you know you'll burn like a fire  
Take me back, push it on, get it in, turn it up  
Take me back, push it on, get it in, turn it up  
Take me back, push it on, get it in, turn it up  
Take me back, push it on, get it in, turn it up  
Can you feel it?  
Music is taking me higher  
Can you feel it?  
'Cause tonight the whole roof is on fire  
Can you feel it?  
Music is taking me higher  
Can you feel it?  
When it's real you know you'll burn like a fire
