

Something About You

R.I.O.

Something about you (something about you)
(Sister Kay, you know)
(Sing it girl)

I knew that someone who come around, like you
Who said it was going down, it's true
Nothing's forever, a dream's just a dream
And every single night I feel like

Two hearts get irritated because
Two parts are seperating
I know there is no more words to say, to say

Don't turn around, just walk away
'Cause I won't believe in the words you say
'Cause still I don't know why
Something about you (Something about you, ya)

Don't play no games, going 'round and 'round
Don't call my name, I've been touching ground
'Cause boy I can't deny something about you
(Something about you)

If I knew this before, I'm sure
I've never opened the door, once more
I'm getting over it now
But again and again and again

I don't know what to do
When you call out my name
I hope I once be feeling the same
I know there is no more words to say, to say

Don't turn around, just walk away
'Cause I won't believe in the words you say
'Cause still I don't know why
Something about you (Something about you, ya)

Don't play no games, going 'round and 'round
Don't call my name, I've been touching ground
'Cause boy I can't deny something about you
(Liz Kay!)

Something about you
Something about you
Something about you
Yeah, yeah
