

Heal It (Prelude)

R. Kelly

There's... a sickness in the land so heaven... (heal it)
There's a sickness in the land so heaven... (heal it)

Woah there's a sickness in the land, so we're reaching up our hands...
Heaven we need, you to, heal it

There's a child crying out right now
Oh heaven we need you to heal it
Oh there's a child crying out right now
Heaven we need you to... heal it
Heaven send your angels down put peace in their hearts right now, woah

We need (we need), you to (you to), heal it (heal it)
Oh heaven, we need (we need...), you to (you to...), heal it
Oh the land, heaven, we need (heaven we need...), you to (you to...), heal it
Heal the land woah, we need (we need...) you to (to heal...) heal it

Ooh America, heal it
And all of the nations, heal it
Politics yeah, heal it
Families, heal it
Planet Earth, heaven we need you to... heal it
