

You Could Be

R3hab

I am sinking into a fever dream now
I am losing my head
I am running in circles on this scene now
I am close to the edge

I need someone to catch me
Will you catch me when I fall?
I need someone to hold me
Will you hold me when I'm cold?

Hey, you, let me show you something good
Yeah, we can be something good
If you let me show you everything
I can be your everything
Will you be my everything?

I am running through empty streets to find you
Where are you hiding now?
Won't you save me? You're all I need and long for
You can't leave me now

I need someone to catch me
Will you catch me when I fall?
I need someone to hold me
Will you hold me when I'm cold?

Hey, you, let me show you something good
Yeah, we can be something good
If you let me show you everything
I can be your everything
Will you be my everything?

Hey, you, let me show you something good
Yeah, we can be something good
If you let me show you everything
I can be your everything
Will you be my everything?
