

Anything U Want

Ra

You turn my world around
And then you turned away
Could this dream of mine
Come true for me today

I see it in the way
You listen when I talk
But I don't understand
The way you keep me crawling

Anything you want
I will do for you
Anything you want
I will see it through
Anything you want
All that I can do
Anything you want
I will do for you, yeah

You're my everything
And I am what you need
You're so far away
I want you next to me

Anything you want
I will do for you
Anything you want
I will see it through
Anything you want
All that I can do
Anything you want
I will do for you, yeah

I know
I can feel it coming
Right now
Because you can't be lonely
Hold me, I will hold you for forever
Because you can't let go of what is right

You turn my world around
And then you turned away
I wish I had the strength inside to say

Anything you want
I will do for you
Anything you want
I will see it through
Anything you want
All that I can do
Anything you want
I will do for you, yeah

(Anything you want)
(Anything you need)
(On my hands you walk)
(On my knees I bleed)

(Anything you want)
(Anything you need)
(On my hands you walk)
On my knees I bleed
(On my knees I bleed)
