

# It's All Over Now

Ra

I cannot stand  
To watch the colors leave your eyes  
You can't escape  
Your false admission in the skies

Where did you run to  
What are you hiding from the  
World you negated  
What you created

Beg for it  
Fall onto your knees  
Vows broken  
Lost identity

Defied (Defied)  
Can't hide (Can't hide)  
Your selfish ways denied  
And it's all over  
You can't make it right  
Broke down (Broke down)  
Torn up (Torn up)  
This truth that you corrupt  
Yeah it's all over  
It's all over now

Insatiable  
Your hunger gorging on the lies  
Confessional  
Hands over Mother Mary's eyes

Ashamed of nothing  
You're just a victim of the  
World that you hated  
What you created

Beg for it  
Fall onto your knees  
Vows broken  
Lost identity

Defied (Defied)  
Can't hide (Can't hide)  
Your selfish ways denied  
And it's all over  
You can't make it right  
Broke down (Broke down)  
Torn up (Torn up)  
This truth that you corrupt  
Yeah it's all over  
It's all over now

Defied (Defied)  
Can't hide (Can't hide)  
Your selfish ways denied  
And it's all over  
You can't make it right

Broke down (Broke down)  
Torn up (Torn up)  
This truth that you corrupt  
Yeah it's all over  
It's all over now

Defied (Defied)  
Can't hide (Can't hide)  
Your selfish ways denied  
And it's all over  
You can't make it right  
Broke down (Broke down)  
Torn up (Torn up)  
This truth that you corrupt  
Yeah it's all over  
It's all over now
