

# My Town

Racoon

We got a supermarket and a church  
For anyone who's got the urge  
There's a nightclub and a school  
Faith, a devil and a god  
But more important, there's a bar  
We've got neighbours with new cars  
Brand new cars

Here in my town, my little town  
My little town, my town, this is my town  
This is my town, my little town  
My little town, my town, this is my town

So the city wasn't what you thought it'd be  
Every night you woke up  
In lost and found, you see  
I saw you every night  
And everybody is always in a hurry  
Yeah they run, run, run, run  
Oh man, that's just not me  
I know you disagree  
But I'll stay here in

My town, my little town  
My little town, my town, this is my town  
This is my town, my little town  
My little town, my town, this is my town

But the city is always warm and pleasing  
No stuck up folks, brand new diseases  
Everywhere around  
Get my kicks more than a lot  
The more I get, the more I lose my appetite  
And that's not right  
I'll stay in

My town, my little town  
My little town, my town, this is my town  
This is my town, my little town  
My little town, my town, this is my town

We got a supermarket and a church  
For anyone who's got the urge  
There's a nightclub and a school out there  
Faith, a devil and a god  
But more important, there's a bar  
We've got neighbours with new cars  
Not that us folks would drive real far
