

## Side Effects

Racoon

All the side effects  
were never mentioned to me  
I am innocent of uncontrolled abuse  
No one ever told me cigarettes could kill me  
now I'm used to them

I never saw the writings and the warnings  
on the packages and posters  
of my role-up smokes  
Tell me that's a hoax

The writings and the warnings  
on the packages and posters  
of my role-up smokes  
Tell me that's a hoax

Got the freakin' idea  
I could be like James Dean  
15 years old with my foot against the wall  
Getting smoke into my eyes  
not that I'd show you  
being cool and man

I never saw the writings and the warnings  
on the packages and posters  
of my role-up smokes  
Tell me that's a hoax

The pores of plague that tease the cow  
the cross-eyed steak I'm eating now  
can overload and in time explode

Pretty done for, heaven knows  
the city's like a snake  
All wrapped up and tangled in  
reality's a fake  
The flashy coloured neon signs  
are screaming 'Ain't it great!  
Come dance with us, take your chance with us

We're left for dead  
without beliefs we're dead  
We're scared, but won't admit, to all of this, I bet  
We're scared, but won't admit, to all of this I bet  
so we cease to care instead

Now I'm stuck between the alcohol and wisdom  
now I'm stuck between a smoke and city air  
Almost used  
to all the crappy things we feed on  
almost belly round and unaware

Pretty done for, heaven knows  
the city's like a snake  
All wrapped up and tangled in  
reality's a fake  
The flashy coloured neon signs

are screaming 'Ain't it great!  
Come dance with us, take your chance with us

We're left for dead  
without beliefs we're dead  
We're scared, but won't admit, to all of this, I bet
