

Give Me A Sign

Radical Something

I can't find no reason why to keep on moving on
I keep pushing I keep fighting I give all my soul
Feel like I've been down this road a million times before
So someone give me a sign
So someone give me a sign
I keep pushin I keep fighting I give all my soul
Feel like I've been down this road a million times before
So someone give me a sign
So someone give me a sign

Your bloods pumpin hearts thumpin gotta keep on runnin
Feet hurtin keep searchin make something out of nothin
All the signs that you see are the signs on the streets
Tellin you just to leave, injecting feelings of defeat, but luckily
You were born with a mind that competes
A brain that keeps writing when these others just delete
Never frivolous find yourself a privilege
Capture their attention every time that you speak
And leap the bridges with the words you can use to speak to kids with
Were travelling the world spreading sickness=
Radi-California sprinting tunnels and I swear we see the light
I think that its the train, if so were ready for a fight
I'm dodging and I'm ducking and I wont slow down
Throwing punches at my pride but I wont go down
I'm slippin I'm fallin, but I wont look down
I'm searchin for an answer to why, so gimme a sign

I can't find no reason why to keep on movin on
I keep pushin I keep fighting I give all my soul
Feel like I've been down this road a million times before
So someone give me a sign
So someone give me a sign
I keep pushin I keep fighting I give all my soul
Feel like I've been down this road a million times before
So someone give me a sign
So someone give me a sign

Welcome to the mind of a movement on the come up
A rat pack of kids couch surfing through the summer
Living nomadic lives, wishing we had the lives
We've been thinking all about since we plugged in the microphones
I used to savor days and the endless nights
Now blurred in one line
Been burning both ends of the candle light
I'm chained to the microphone
I wonder well ever get to figure out that the time that we spent
Being real and forgiving all these opposite opinions will be worth it in the
end
I'm dodging and I'm ducking and I wont slow down
Throwin punches at my pride but I wont go down
I'm slippin I'm fallin, but I wont look down
I'm searchin for an answer to why, so gimme a sign

I can't find no reason why to keep on movin on
I keep pushin I keep fighting I give all my soul
Feel like I've been down this road a million times before
So someone give me a sign

So someone give me a sign
I keep pushin I keep fighting I give all my soul
Feel like I've been down this road a million times before
So someone give me a sign
So someone give me a sign
