

Spread Your Wings

Radical Something

You could never get enough of this weather, gotta ruffle your feathers
And steal away from your place of pain
Thinkin what did you ever do to flush all your revenue
And watch it slip down the drain

Turn your back on life cuz it's good sometimes to get out, to get out
Feel it from the waistline down to the bass line, so get out, so get out
Your road is open down the seam, the tweeters blown, the speakers bleed
So no doubt, ya no doubt, oh lil' mama no, lil' mama no

Pack up your room--head out
Go waving your flag down South
Lil' mama gon' spread your wings
Lil' mama gon' spread your wings
Lil' mama gon' spread your wings
Lil' mama gon' spread your wings
C'mon

You spent your life savings on a one way ticket to
a place that you've never even been
Got dreams of golden tans and holding hands with a
man that you haven't even met yet
And ohhh
I know you didn't tell nobody back home, so nobody knows
I know you didn't tell nobody back home,
you just had to spread your wings and go
I know you didn't tell nobody back home, so nobody knows
I know you didn't tell nobody back home,
you just had to spread your wings and go

Pack up your room--head out
Go waving your flag down South
Lil' mama gon' spread your wings
Lil' mama gon' spread your wings
Lil' mama gon' spread your wings
Lil' mama gon' spread your wings
C'mon

Just had to spread your wings
Yeah
I know you didn't tell nobody back home,
you just had to spread your wings and go
Just had to spread your wings
Yeah
I know you didn't tell nobody back home,
you just had to spread your wings and go
Just had to spread your wings
You jus had to spread your wings and go
(Just had to spread your wings and go)
Just had to spread your wings and go
Hey, just Just had to spread your wings
