

I Got What You Need

Radney Foster

I know just what you're talking about
We've all got hopes and dreams and doubts
When your heart is on the line
Some walk, the walk, some just like flirting
Some talk, the talk and then leave you hurting
I'm not the hurting kind

Everybody knows that
Love is the finest thing in this world
I believe, you can spend a lifetime
Running away if you want to, girl
But if love is what you want
I got what you need

Baby, ain't nothing like living the truth
Saying what you mean and meaning what you do
I'm not gonna waste your time
Trust me, baby, I'll be there for you
Body, heart and soul to cling to
I know we can fly

Everybody knows that
Love is the finest thing in this world
I believe, you can spend a lifetime
Running away if you want to, girl
But if love is what you want
I got what you need

When all your faith is gone
When darkness waits before the dawn
I'll be there to help you make it through

Everybody knows that
Love is the finest thing in this world
I believe, you can spend a lifetime
Running away if you want to, girl
But if love is what you want
Baby, if love is what you want
I got what you need
I got what you need

If love is what you want
(Baby)
I got what you need
If love is what you want
(I got what you need)
I got what you need

If love is what you want
I got what you need
If love is what you want
(I got what you need)
I got what you need

If love is what you want
I got what you need
If love is what you want

(I got what you need)
I got what you need

If love is what you want
I got what you need
If love is what you want
(I got what you need)
I got what you need

If love is what you want
I got what you need
