

If It Were Me

Radney Foster

Her eyes tell the story
Too many nights alone
He always takes for granted
She's waiting there at home

He treats her like she's nothing
Man, that guy's a fool
Can't he see
He holds a priceless jewel

If it were me
I'd be thanking my lucky stars
If it were me
I'd be holding her in my arms

She'd never ever wonder
What true love means
If it were me

I've heard the lies he tells her
When he stays out 'til dawn
The stuff he tries to sell her
Nobody buys for long

She deserves much better
Than the crumbs he throws her way
I think it's time somebody
Set him straight

If it were me
I'd be thanking my lucky stars
If it were me
I'd be holding her in my arms

She'd never ever wonder
What true love means
If it were me

Someday she's gonna realize
She's worth a whole lot more
I'll be right there
Waiting at her door

If it were me
I'd be thanking my lucky stars
If it were me
I'd be holding her in my arms

She'd never ever wonder
What true love means
If it were me
If it were me
