

# Scary Old World

Radney Foster

Baby, it's a scary old world we're living in  
Sometimes it hard to tell who's really your friend  
But there's not much that I'm sure of but one thing's the Gospel truth  
I wouldn't be so damned afraid of what's on the evening news  
If I could just wake up every morning lying next to you

Hold on to me another minute  
Treasure every second while we're in it  
This loves's so strong  
Baby, let it linger on

Hang on tight and let's chase tomorrow  
Share the dreams, survive the sorrows  
This scary old world, baby, honestly  
Could sure use lovers just like you and me

'Cause, baby, I think it's time we made our move  
Do the things that only true lovers do  
I need you right here with me every single step  
I'll give you this heart and soul and pray that God will help  
Be your shelter from the storm 'til my dying breath

Hold on to me another minute  
Treasure every second while we're in it  
This loves's so strong  
Baby, let it linger on

Hang on tight and let's chase tomorrow  
Share the dreams, survive the sorrows  
This scary old world, baby, honestly  
Could sure use lovers just like you and me

Hold on to me another minute  
Treasure every second while we're in it  
This loves's so strong  
Baby, let it linger on

Hang on tight and let's chase tomorrow  
Share the dreams, survive the sorrows  
This scary old world, baby, honestly  
Could sure use lovers just like you and me  
Just like you and me, just like you and me  
Baby, just like you and me, yeah, just like you and me
