

You Were So Right

Radney Foster

It's scary to say it
The words catching in my throat
You love that I hate this
Better get it out before I choke
It took some time for me to get it
Some guys won't, but I'll admit it

You were so right, I was so wrong
How'd you know I could never live without you?
Baby, you love that hit me so strong
You were so right and I was so wrong

I hid it, but you found it
You're smarter than I thought
And that sly grin, it kills me
I musta been dying to get caught
I fought hard not to believe it
I wised up, baby now I see it

You were so right, I was so wrong

How'd you know I could never live without you?
Baby, you love that hit me so strong
You were so right and I was so

Restless, running, haunted
Now my heart's confessing
Now, I want nothing but kisses
With sweet forgiveness

You were so right, I was so wrong
How'd you know I could never live without you?
Baby, you love that hit me so strong
You were so right

You were so right, I was so wrong
How'd you know I could never live without you?
Baby, you love that hit me so strong
You were so right and I was so wrong
