

Come Together

Raheem DeVaughn

Baby the morning time (Morning time)
The burned toast and coffee time has passed (Time has passed)
And the morning traffic, and dealing with the stress of your job (I know)
'Cause I know your boss probably worked your last nerve today

So when you get home
I'll have dinner ready for you
And the kids tucked in (Yeah)
And the bathroom warm (Yeah)
Rosé all nice (Yeah)
The moods set right (C'mon now)

I'm going to lie you down and
Wash your back and dry you off (Make love)
Next to roses red, by the violets blue
In a king-sized bed I'll be inside of you (Inside of you)
Locked away till the light of day
Lovin' all your worries away

It's time to go where lovers meet
It's time to go where lovers go
Where lovers go to the highest peak
When me and you come together
Come together
When me and you come
We come together
When you and me come together
Yeah, ooh, yeah
When me and you come babe
When me and you come together

It's Friday with no show to do
Cheers to the freakin' weekend
I got a pocket full of money with my top down
And I wanna spend it all on you

(First stop) I'll be coming by your place
(Second stop) To the wine and dine for dinner baby
(Third stop) The theater for a movie baby
(Fourth place) And then it's back to your place

And I'ma light the candles before it's dark
Let a slow jam make the ambiance (Slow dance)
With a bowl or two of some fruit for you
With some oils too, to rub you down

And after foreplay when I hear you say
"I just can't take no more babe"
(Just can't take no more babe)
Then there's love in the king-sized bed
With your legs spread
We'll be loving away

It's time to go where lovers meet
Let me take you where lovers meet
Where lovers go to the highest peak
When me and you come together

Whoa baby when
When me and you come
When me and you come, come together
When you and me come together
When me and you come
When me and you come together

Where lovers go (Ooh, ooh)
Where lovers go (Ooh, ah)
It's time, it's time, it's time, it's time

It's time to go where lovers meet
I know you wanna go
Don't you wanna go where lovers meet
Where lovers go to the highest peak
When me and you come together
When me and you come together
When me and you come together, baby baby
When me and you come
Whoa baby, when me and you come together
It's time, yeah yeah yeah

It's time to go where lovers meet
I wanna come if you come, where lovers meet
To the clouds now baby
Where lovers go to the highest peak
We'll go sky high, to the highest peak
When me and you come together
When me and you come, as one
When me and you come together
When me and you
When me and you come
When me and you come together

Together
Together
When we come together
Together
