

Soul Free

Rahsaan Patterson

I'm giving up on we
Leaving behind the past and what might be
Erasing all of the memories from my mind
So I can set my soul free

No matter where you are
Baby near or so far
You must always know that you're in my heart
As I try to forget
All the time that we spent
I'm sure I'll never love this way again

I need to let my soul free-soul free
Even though in times it may hurt me
I need to set my soul free-soul free
And let go of this love baby completely

Far too many times baby
we've played the gam of loves hide and seek
Growing oh so tired of the mystery
I've decided to set my soul free

No matter where you are
Baby near or so far
You gotta know that you're in my heart
But we've traveled far beyond
The star we were once on
And I don't think we can find our way home

I need to set my soul free-soul free
Knowing that in time it may hurt me
I need to set my soul free-soul free
And let go of this love baby completely
