

# Walk on Fire

Rain

In my dreams I can't erase you  
You're the sun that burns at night  
I heard angels serenade you  
Hope you never leave my side

I smell smoke but I could never ever give it up  
'Cause I'm burning for you  
I walked a wire tightrope, could never get enough  
'Cause I'm fallin' for you

I would walk on fire  
Walk on fire  
Walk on fire for you  
Oh, I would walk on fire  
Towards desire  
Walk on fire for you

I climb the highest mountain  
Dig an ocean to get closer to you  
And as I fly up to the sky  
You always pull me through the extra mile or two

I would walk on fire  
Walk on fire  
Walk on fire for you  
Oh, I would walk on fire  
Towards desire  
Walk on fire for you

I would call your name  
Through a thousand lives  
Walk above the flames  
Till the end of time

Oh, I would walk on  
I would walk on  
I would walk on fire for you  
I would walk on  
I would walk on  
Oh, I would walk on fire for you

I would walk on fire  
Walk on fire  
Walk on fire for you  
Oh, I would walk on fire  
Towards desire  
( 'Cause you're the sun that burns at night )  
Walk on fire for you

I would call your name  
Through a thousand lives  
( Walk on fire for you )  
Walk above the flames  
Till the end of time

In my dreams I can't erase you  
You're the sun that burns at night
